The Human Resource Officer
Uganda National Oil Company
Plot 15 Yusuf Lule Rd,
Kampala, Uganda

Dear Madam,

I am writing to express my interest in the Graduate Training Program at the Uganda National Oil Company in the Department of Information and Communication Technology, as advertised on <https://www.unoc.co.ug/career-opportunities/>. I am motivated by the opportunity to learn and contribute to the UNOC's ICT advancements and contribute to the successful development of Uganda's oil and gas resources.

I am currently completing my final semester (semester 2, year 4) of a Bachelor of Science degree in Computer Engineering at Makerere University. Throughout my studies, I have developed a good foundation in computer hardware, software, and communication networks, along with a keen interest in applying them to real-world applications like those undertaken by UNOC. My academic journey has been complemented by practical experiences gained during industrial training at Research and Education Network for Uganda, netLabs!UG - Makerere University, and eVo Tech Solutions Limited. These experiences equipped me with practical skills through the different projects I worked on in network administration, systems administration software development, and cybersecurity.

I am particularly drawn to the Uganda National Oil Company's commitment to innovation and excellence in the oil and gas sector. I am eager to make use of my skills and knowledge to contribute meaningfully to the team and learn from industry experts.

I am good in programming languages such as Python and C and have a good understanding of different distros of the Linux Operating System. Though I am yet to graduate, I am confident that my academic background, technical skills, and eagerness to learn will allow me to quickly adapt and contribute adequately to the ICT department at UNOC.

Sincerely,

Samuel Kanyesigye
